pies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing, patents, or ascertaining the patentability of inventions ansurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give prout that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BRST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so muderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library or legal and mechanical works, and full accounts of patents granted in the United States and Europe, reader him able, beyond question, to offer superor facilities for obtaining patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there are here saved inventors.

EDMUND BURKE,

Late Commissioner of Patents.

Baston, February S, 1885.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great releat and shifty on his part leads me to recommend all inventors to apply to him to proonte their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable scharges.

DR. MOTT'S CHALYBEATE RESTORATIVE

PILLS OF IRON.

and the United Start, and prescribed in their practice:

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innxious in almost management of such goods, will do well to call and make their selections, at prices that which it has been tried, it has proved absolutely curative in each of the fullowing complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsis, Constitution, Distribution, Dyspepsis, Constitution, Distribution, Dyspepsis, Constitution, Distribution, Dis time of apparent marasmus, sanguineous ex-haustion, critical changes, and that compli-cation of nervous and dyspeptic aversion to air and exercise for which the physician has

on name.

In Nervous Affections of all kinds, and for reasons familiar to incident men, the operation of this proparation of non must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aportion, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

cases of costiveness, willout ever ceny a gastrie purgative, or milicing a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single bex of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Costiveness.

In unchecked Diarrhom, even when advanced to Dysentery, confirmed, emnicating, and apparently malignant, the effects have been equally decisive and astonishing. In the local pains, loss offieth and stength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gralifying and interesting instances.

In Scrolulous Tuberculous, this medicated iron has had far more than the good effect of the most cautionsly balanced preparations of iodne, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this remedy and restourative, in the cases peculiarly affecting them.

In Rhemmatism, both chronic and inflammanory—in the latter, however, more decidedly—in the seeminarially well renore.

lu Rheamatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscless. In Intermittent Fevers, it must necessarily be agreat ternedy and energetic restorative, and its progress in the new settlements of the West, will probably he one of high renown and usefulnose.

No remedy has ever been discovered, in the whole history of medicine, which everts such prompt, happy, and fully restorative effects. Good appertite, complete digestion, rapid acquisition of strength, with an usual disposition for netive and cheerful exercise, immediately follow its use.

Put up in neat flat metal hoxes containing go pills, price 30 cents per har; for sale by Druggists and dealers. Will be sent free to any address on receipt of the nife. All letters, orders, etc., should be addressed R. B. LOCKE & CO., General Agents, ap7 2taw&w

Such of our readers as have not carefully read the petition, we should advise so to do. To those who have read it, we perhaps, hardly need say that it is, when all its surroundings are considered, a singular, able and unfortunate writing.

It contains, first, a specification of what is saked, and second, the reasons why it is saked. The latter are not easily specified, but fairly stated, perhaps, are: first, that secording to the canons of their church, by granting the prayer, a great benefit perfect freedom, in all religious matters. Ward Boundaries.

I am happy to state that having worn glasses for several years, I was induced to try (D. B. Warren's Eye Restorer, which has so benefit that body altered the boundary line between the Third and Fourth Wards. As that document is supposed to contain it may be an any self to see any kind of print without glasses, as in my early isan-kood. Having followed its divections fully, I can truly add—it is a sefe and simple remedy, and I hope others may reselve as much benefit as myself. I sum yours, fully.

NEWPORT, APRIL 25, 1860.

MR. D. B. WARREN:—This will certify to the public, that I form cordisity recommend your "Eye Restorer" for any traubled with Cataractis. Some years ago, my eyes were operated upon by an eminent physician, and having taken cold, I had not, of late years, been able to see anything or person definitely, only something without form, sideways. I could, however, discern light from darkness, and now can distinctly see persons and all things around. For the good I have received, I would that all thus troubled may be inclined to try.

THE SPLIT AT CHARLESTON,-The split according to the canons of their church, in the Democratic party at Charleston is they cannot worship in the Chapel so long an event of very marked importance. It as it remains within the Third Ward; that marks a step in the history of the country by granting the prayer, a great henefit would be conferred upon those who wish to worship in the Chapel; that it is a Divine command, that the Gospel shull be freely presched all over the world, and that by so doing they will vindicate the Rhode Island principles of toleration and principles of toleration and properties of the country also. For a long time near we have hards decidedly in advance of any taken hitherto, also. For a long time past we have had a United South—we are about to have a united South—we are about to have a United North also.

The Democratic Party is the last of the great national organizations to yield to the "irrepressible conflict" which slavery and freedom have been waging for control of the Federal government. The churches it, from which this relief is desired? It and freedom have been waging for control of the Federal government. The churches of all denominations have given way, one lites in the petition, it is intimated to the contrary. Are the petitioners prepared to charge this intolerance and oppression upon their own church? Is it not something in the fisme; and now the Democracy has in the flame; and now the Democracy has

also yielded. In every struggle hitherto, the slave interest has maintained its ascendancy in the ranks of the Democratic party. It has now been defeated. The Northern section of ual A. procures an act of incorporation, the party has esserted its power, and with new and unlooked for firmness has maintained its position. If it stands still in its present attitude, the sectional contest is over.—N. V. Times.

Governor Buckingham, in his message to the Connecticut legislature, alludes to the duties obligatory upon them; calls for better protection to the ballot-box; recommends a registry law, that every voter should be able to read, and that no electors should be made on days of election; suggests improvements in the law for the protection of property, so that in case of protection of property, so that in case of pointment of arbitrators to adjust the boundary line between Connecticut and act?) he endeavors to injure the business of A., and at the same time negative the whole value of the act of incorporation. What does B. give as reasons for obtaining this exparts act? At present, the characters are moulded one-by-one, and are appeal to the civil authority for religious freedom and toleration! Both of these buildings were erected with this law fully recognised by both parties; where then is the intolerance? Again, how does the Divine command that the Gospel shall be freely preached all over the world, operate in favor of altering the boundary of the Third Ward? Is it the point particularly clear?

We stated, a few days, since, that we thought no injunction could be obtained from the Supreme Court, because the intolerance at one stroke. Each I there is then intolerance at one stroke. TELEGRAMS

NEWPORT DAILY HEEWS From Washington.

About one-half of the Southern members of Congress had last night refused to sign an address endorsing the action of the seceders. The Douglas men are getting up indignation meetings at the South.

The returning delegates say that Douglas must be the nomines, or must decide who he shall be. There is much bitter feeling all around.

Brigham Talking to the Saints.

Brigham Young, in a discourse to bis followers, at the Taberancle at Salt Lake City, a short time since, said:

I have very little to say to men who are dissatisfied with my caurse, or with the course of my brethren. Some have wished me to explain who we hailt an adults wall

dissatisfied with my course, or with the course of my brethren. Some have wished me to explain why we built are adobe walt around this city. Are there any Saints who stumble at such things? O, slow of heart to understand and believe. I build walls, dig ditches, make bridges, and do a great amount and variety of labor that is of but little consequence, only to provide ways and means for sustaining and preserving the destitute. I annually expend hundreds and thousand of dollars almost tolely to furnish employ te those in want of labor. Why? I have potatoes, flour, beef, and other articles of food, which I wish my brethren to have; and it is better for them to labor for those articles, so far as they are able and have opportunity, than to have them given to them. They work, and I deal out provisions, often when the work does not profit me.

I say to all grunters, grumblers, whinters, hypocrites and sycophonts, who saivel, crouch, and crawl mound the most contemptible of all creatures for a slight favor, should it enter my mind to dig down the Twin Peaks, and I set men to work to do

should it enter my mind to dig down the Twin Peaks, and I set men to work to do Twin Peaks, and I set men to work to do so, it is none of your business, neither is it the business of all earth and hell, provided I pay the laborers their wages. I am not to be called in question as to what I do with my funds, whether I build high walls or low walls, garden walls or city walls; and if I please, it is my right to pull down my walls to morrow. The subscribers take this method of returning thanks to their many patrons for the increased orders from year to year, for their Lyxins Valley Franklin Coal.

The mines from which this Coal is taken were never in so promising a condition as at present, and such improvements have been made for preparing and screening it as warrant us in saying that we believe the Coal will be shipped in better order than ever before. The superior quality of the Franklin Coal having become fully ostablished, the demand has rapidly increased, and an evidence of its great popularity is the fact that several dealers have adopted its name in full or in part, thereby hoping to introduce other kinds of inferior Coal by which the public have often been decived.
